

February 8, 1973

bill, you're going to be right back where you started again, and I don't know of any other bill in here, unless you can help us find one, that will correct this situation.

SPEAKER: Is there, Senator Snyder.

SENATOR SNYDER: Just briefly Mr. President and members of the legislature. Could not a committee introduce a bill just on that one point?

SENATOR DUIS: I think the committee could, but I don't know why it would be necessary for you to kill a bill when you can amend it back into it's original form if that's what you're interested in, to keep the committee amendment, but you go right ahead and do whatever you want, because if the kill motion survives, then you're going to be back the same way.

SENATOR SNYDER: Well as I read this most of the language deals with offices there is only about three lines dealing with the part time superintendent.

SENATOR DUIS: Well if you will read the bill Senator Snyder, you'll find out by having it the way it is, that we have great inconsistency, we got a lot of part time employees that are not part time employees, that is the old law.

SPEAKER: Senator Stahmer did you wish to be heard again? We are still debating on the motion to indefinitely postpone. Senator Warner.

SENATOR WARNER: Mr. President and members of the legislature, I speak in opposition to the kill motion, I appreciate the thoughts that county government is a local government, but I would also remind you that essentially at least in many respects, county government is an administrative arm of the state, they have responsibility to the recording of many legal documents, the collection of fees, in many cases the collection of fees the county receives a percentage of it which also goes for in part for the collect, for the payment of salaries to those officials who do it, and it seems to me that in view of the responsibilities that the state places on county government as an administrative arm, the state government is not improper. That we also, have some responsibility to the salaries to those officials who have the responsibility of acting for the state. (inaudible) and for those reasons I would urge that we do not postpone this bill.

SPEAKER: Is there any further discussion of the motion? Senator Carpenter do you care to close on your motion to indefinitely postpone. Senator Carpenter is now closing on his motion.

SENATOR CARPENTER: Well Senator Anderson, at least I think he confirmed what I said, that only a few counties in this state which have refused to raise salaries, and I presume they must have a good reason to, and I haven't heard of any recall action in those counties, to the extent, because to remove those people they haven't raised salaries, and I don't think we ought to get in the position of those people who have the direct responsibility for operating those counties to tell them because most of the other counties say they're not doing it we do, but we want the legislature to make them. Now that's a new form of approach to the direction of local government, and I just don't think the bill has, should be passed. If it would affect all structure of county government in which none of these 93 counties were doing this thing, then maybe it might have more merit but the same principle would be involved, but this is only a few counties, number I do not know, who say we're not going to do it, and they have been elected in those counties to represent the people, but this body, are we going to say, well you're going to do it whether you want to, whether you have been elected by the people or not,
